

# Team Management Profile ACCREDITATION

Delivered over two days, the Team Management Profile (TMP) Accreditation Workshop will provide you with the necessary training to facilitate a TMP debrief or workshop and the resources required to build a programme using the TMP.

The TMP Accreditation Workshop also provides an understanding of the underlying Team Management Systems (TMS) framework and learning methodology that supports the TMS Suite of Profiles.

## TMP Accreditation will...

- Provide you with all the resources you need to run TMP debriefs and programmes
- Give you knowledge and understanding of the core TMS concepts and framework
- Walk you through the TMP Hub and how it can be integrated into your learning programmes
- Provide you with an understanding of the TMS research and its importance
- Give you insights into how you can maximise the value of the TMP and improve the impact of your L&D initiatives

## Why use the Team Management Profile

The TMP is a proven psychometric profiling tool for individual, team and leadership development. The TMP offers a framework to build high performing organisations by improving performance and collaboration, and developing leaders. It is all about learning, not just assessment and provides a common language for individuals, teams and organisations to recognise their strengths in the workplace - enabling positive, lasting change.

The TMP provides objective, constructive and work-focused insights to help individuals understand why they work the way they do, and develop strategies for improving how they work with others.

“ The benefits of the Team Management Profile are for everyone in a workplace - individuals for self-awareness and professional growth, teams to learn and grow together, and for organisations to create high performing, connected and engaged teams. The TMP is a lifelong learning approach that evolves with you on your career journey. ”

## Accreditation Delivery

### PUBLIC WORKSHOP

**\$2495 ex gst**

Public workshops blend TMP theory with practical applications, including exercises demonstrating how to use the TMP Hub to support your learner's on-going development.

Our face-to-face workshops are highly interactive - the ideal option for practitioners who enjoy learning with others.

### VIRTUAL WORKSHOPS

**\$1995 ex gst**

Virtual workshops use a blended learning approach combining live webinars with self-directed learning and phone coaching provided by our specialists.

Delivered in 4 x 2 hour sessions over two days, a virtual offers an interactive learning experience from a location of your choice.
